Apple House

Residential Care Home

Facilities, Activities & Amenities

Apple House care home is located in the mature residential area of Southbourne. Ideally situated close to the seaside town of Bournemouth, the home is within walking distance of local shops, leisure facilities and amenities including churches of most denominations.

Set over two floors, Apple House has four bedrooms, three toilet/bathrooms, a comfortable lounge as well as a light and airy conservatory which is utilised as a dining room and activity space. The large private garden to the rear of the house is a tranquil environment with fruit trees and a patio offering a peaceful space to sit and enjoy the finer weather.

We encourage residents to take an active role in their lives by supporting them to carry out day to day tasks. To develop confidence levels and promote social inclusion we help residents to enhance their lives by seeking new activities and experiences both locally and in the wider community. We offer a range of activities such as pet therapy, picnics and parties, and we also attend a variety of local events.

Residents have the choice of where they would like to go and what they would like to do during their annual holiday and weekend breaks. The break away provides residents with the opportunity to interact with different people in new surroundings and to help develop social skills.
